Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notions" free any more than a merchant can give his customer free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements accepted for paid, no matter in what part of the paper they appear.

We Have!

Always contended for and maintain it is a fact that there is a higher order of intelligence evinced in the business of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$4.00 will buy a \$12 suit of clothes. Our many years experience goes to show that people want good goods, and for which they are willing to pay a fair price. Our 1898 spring business proves that the higher the class of goods the readier they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$15) have bounded into wonderful great favor with our good dressers. We have a beautiful line for the weather is getting right for our

We feel confident that discriminate and shrewd carpet buyers will soon appreciate that this is a Carpet Chance extraordinary. Remember, your choice of our Axminsters and Moquettes at 50c a yard.

75c. SHIRTSWAISTS AT 19c.
We carried over a few dozen The Shirtswaists from last season. They're in the way—taking up room we need for new goods. To dispose of them we sell them at the ridiculously low price of 19c. It's almost like giving 'em away. At this price they'll not stay long, so you'd better come soon.

A STARTLING SALE OF LADIES' SAILORS.

These are the best creations of our own factory. Under ordinary circumstances our price to the consumer is a few dozen The Sailors. But for the week prices will fall to the very bottom. All of our The Sailors, the kind you're buying for 19c, for 12c, and our usual 50c. kind, of regular \$1 value, reduced to 50c. Only for this week, and a limited quantity at that.

More than 100 different patterns of WASHABLE SHIRTSWAISTS GINGHAMS, being sold by others at 10c, are on our front counters at 8c a yard. You'll find no such variety of Gingham at the same price in any other store in the vicinity.

Leading ordnance men supposed a gun ended its career of usefulness when it had been fired 300 or 350 times. Some of our big guns have been fired 200 or 300 times and are still good. One of the Mantonmoh 10 inch guns has been fired more than 200 times and shows no signs of wear.

SHOOK THE EARTH.

Nervous People Report a Severe Shock of Old Terra Firma.

According to various citizens old Terra Firma had a nervous attack about 3 o'clock this morning.

It may have been a continuation of the shock reported from Springfield a few days ago; it may have been a vibration caused by the belching of Sampson's big guns at San Juan; or it may have been due to the quality of red licker consumed by the hearers on Saturday night.

At all events no damage was done and everything moves along with appointed regularity.

MAYSVILLE MAN HONORED.

Morris C. Hutchins Appointed Chief Quartermaster With Rank of Major.

Shake, Major!

The 'Man from Maysville' got there at last!

On Saturday the President appointed Captain M. C. Hutchins a Chief Quartermaster with the rank of Major.

The position is quite a good one, providing always that the officer gets an assignment in a pleasant city.

The pay, including commutation allowances, is \$308 per month, or \$2,500 per year.

While THE LEDGER congratulates Judge Hutchins on his appointment, it would have been glad had he been given something more commensurate with the service he has rendered to his country.

KENTUCKY DISTILLERS.

Estimated That the Evans Outage Bill Will Save Them \$3,000,000.

If the Evans Outage Bill passes the Senate as it did the House, the saving in actual cash to the Kentucky Distillers will be about \$3,000,000, which will go far toward keeping on their feet some of those distillers who for the past six or seven years have been paying taxes on whiskey they did not have.

The main feature of the bill is its provision to renege whiskey at the end of seven years, the limit of the bonded period, and the payment of the tax on the amount of whiskey in the barrel at that time.

According to the old law repealed by the Evans Bill the distiller paid taxes on the whiskey in the barrel at the end of four years, which was always much in excess of the amount in the barrel at the end of the bonded period.

Worth Saving.

Comparison of cost of gas at main office Western Union Telegraph Company, San Francisco, using the Welsbach System, with same period in previous year while using ordinary burners, shows a saving of over 50 per cent.:

Large crowd out last Saturday night—the house was packed, standing room was at a premium. A new show this week—new faces, new acts and new features.

Fremont Park.
Prof. Raymond, the great hypnotist, will be the headliner at this popular resort this week. His work is said to border on the miraculous. Miss Maxine is another strong card that should assist in filling the cozy little theater nightly; by those who are devotees of terpsichores. Ban Turpin, dancer and comedian. Miss Oona Vinnell, the sweet singer, and several of the members of last week's show hold over. Manager Fremont should have no trouble in securing a good program from the above talent. Go out tonight.

THE BANKS WIN.

The United States Court Knocks Out the Kentucky Legislature Some More.

At Cincinnati Saturday the United States Circuit Court of Appeals, Justice Harlan presiding, decided twenty six cases appealed from Kentucky Courts contesting the validity of a legislative act taxing franchises.

These cases were all brought by banks and trust companies.

The Court held that the Legislature had the power to create a tax board to fix the valuation of stock, etc.

Injunctions were granted in all cases where the banks had accepted the provisions of the old Hewitt Law of 1896, which provided for further examination after the corporations had paid a tax of 25 cents on each share of stock.

The petition for a rehearing in the case of Richardson vs. Chancellor's Trustee, taken up from this county, has been filed and submitted in the Court of Appeals.

The Pastor of the First City will meet on Monday afternoon at 3 o'clock in the study of Rev. J. S. Hays of the First Presbyterian Church.

DISTRICT COMMITTEE MEETING.

There will be a meeting of the Ninth District Committee at the Central Hotel, Maysville, Ky., at 11 o'clock a.m. Wednesday, June 15th, 1898, for the purpose of selecting the time and place for holding a Convention to nominate a Republican candidate for Congress in this District. JAMES S. REEV, Chairman of Ninth District.

THE LEDGER today prints the call for a meeting of the various county Chairmen of this District, to be held in this city June 15th, to select the time and place for holding the coming Congressional Convention.

SPEAKING of the coming Congressional contest in this District the esteemed Mt. Olivet Advance is considerate enough to say—

"TOM DAVIS, who seems to be conducting the campaign on the 'I don't get the Postoffice' principle, loves Robertson—just like the devil does water. If Cox gets Tom rope enough his name will be DENNIS so far as Congressional aspirations are concerned."

In the first place, Mr. Davis disclaims that he is alone conducting Mr. Cox's campaign—it is a movement of the people against the politicians who are in politics for their own profit—the "bores" and the journeymen as well.

As we do not remember to have at any time trampled on the toes of the gentleman who elings ink and adjectives from his high altitude in Mt. Olivet, we cannot account for the bitterness in his month when he speaks of THE LEDGER.

Perhaps we have been too clever to him; some people have a fondness for liking their enemies and striking their friends.

It is because the Editor of THE LEDGER has always given his hearty support to every man who came out of Robertson county—and who made enemies elsewhere because he voted in Convention for Judge DEMING for its nomination for Lieutenant Governor in opposition to nearer neighbors—is it because of some things as these that the Mt. Olivet borer rises up in his wrath?

The people of Robertson county have been uniformly kind to us; we have tried to reciprocate that kindness as best we knew how.

Whatever the principle on which the inept Congressional campaign is being conducted, it is being conducted to win; and as our esteemed but capacious critic will have no decisive voice in the matter he can go on scolding to his heart's content.

Late to bed and early to rise, prepares a man for his home in the skies. Early to bed and a Little Early Rise, the pill that makes life longer and better and wiser. HENRY W. RAY, adjoining Postoffice.

The average age at which men marry is 37.7 years, while the average age at which women marry is 25.1 years.

THE DEERING GUIDE.

The Latest News From All Parts of the Commonwealth.

THE DEERING is a safe line to hitch to. In buying a Self Binder one should study the matter carefully and select the best machine. Any make of binder will do what they all do that; but there is one machine that will cut wheat, rye, oats, barley, millet, bluegrass, timothy, etc. Standing up or laying down flat, long or short, heavy or thin, on level, rolling or hillside as steep as a roof. This machine is the Deering. Condition of grain or land makes no difference to this machine's binder. Get your money's worth and

BUY A DEERING

Chat Ever Came to Northeastern Kentucky

was received Monday, Tuesday and Wednesday, May 10th, 11th, 12th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was \$2,000,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sial. Every one wants, demands and will have no other binder after once using Deering Pure Sial. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sial Twine has become so great that we were compelled to this year buy \$2,000,000 feet to accommodate the wants of our customers. Now, listen! Every inch of this Twine is tested at a much higher tension than any binder requires in tying; while in other makes of twine only 100 feet of every 50,000 feet is tested. Deering Pure Sial Twine is made of extra long (first) strands of Pure Sial Fiber, which permits of a very fine spinning, thus producing more bundles to the pound than any twine in the world. To make a long story short, I offer the following: Take out lot of Deering Pure Sial Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be refunded. Surely, that's fair. You are to be your own judge. Say, I am saving you money on twine. I bought my twine some time since when it was selling below the cost of production. Twine has advanced ever since. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today (i.e. a pound less than the market price). In buying Binder Twine, Farm Wagons, Farm Implements, Mowers, Hay Rakes, Self Binders or Furniture it always pays to consult The Price Fighter.

Deering Machines have roller and ball bearings both, and in that respect is the only machine of the kind made. It is draft of the lightest of any now on the market. Remember, Deering made the first twine binder. Deering first used ball and roller bearings. Surely you won't buy a cheap imitation. Take a business view of the matter. Don't buy an experiment when you can take advantage of Deering's 38 years experience. They made the first Twine Binder, have spent a lifetime in improving it and today offer you the result at the same price that other companies wish to charge you for experiments. Don't buy a cheap experiment, but buy a perfected Deering Binder, Mower or Hay Rake. They have made all your neighbors happy, as nearly 1,000 testimonials that we hold of residents of Mason, Bracken and Robertson distinctly state. We will be pleased to show you these testimonials. Come and see Deering's wonderful line of prize winning machines.

WEDNESDAY, JUNE 1st, 1898,

THIS DAY SET FOR

THIS YEAR'S GRAND PICNIC AND DELIVERY DAY.

Upon this day all who have this year purchased a Deering Machine are expected to spend the day in Maysville and thoroughly enjoy themselves at John I. Winter's expense. We trust that all our customers will take advantage of this day to haul out their machines, for on this day we will pay all toll coming and going and care for man and beast the entire day. There will be plenty to eat for man and beast. Your entertainment the entire day will be with our compliments and at our expense. I trust that all of our customers will take advantage of this day to haul out their machines. Get in the procession just behind the band and help us to have a good time. Oh, yes; the band will be there! Remember, the date of this year's Picnic, Delivery Day and Banquet is Wednesday, June 1st, 1898. All of this year's purchasers of Deering Machines are expected.

MEXICAN DOLLARS

They Will Play an Important Part in the Philippines.

BOYS WILL GET TWO FOR ONE.

One of the most interesting preparations for the outfitting of the Manila expedition has just been announced.

The Government has purchased 250,000 Mexican silver dollars, which General Merritt will take along to defray the expenses of the expedition. This amount is not expected to last long, but more will be sent him from time to time.

By purchasing Mexican dollars a great saving is made.

It is possible to obtain Mexican dollars at 40 cents each, thus obtaining for one American dollar two Mexican ones, and leaving 8 cents over toward the purchase of a third. In other words, Uncle Sam was able to buy 250,000 Mexican dollars for \$116,000. They were bought in San Francisco.

In the Philippines a Mexican dollar will buy more than an American dollar, because of Spanish prejudice and because it contains more silver, so that the expenses of General Merritt's expedition after it once lands in Manila will be less than one-half what they would otherwise be.

As to the soldiers, they will fare excellently under this arrangement, for they will of course be paid according to law in American money.

The Paymaster will give each soldier two Mexican dollars for every American dollar due him on pay day.

COX FOR CONGRESS

Press Opinions on the Candidacy of Our Fellow-Citizen.

Brookville Review.

The race between Pugh and Cox for the Republican nomination for Congress is waxing warm, and from the tone of our Republican exchanges, it's hard to tell just who's going to knock the permission. Both candidates have a strong following in this county, with Cox a little in the lead. The time and place for holding the Convention has never as yet been decided upon. The vote in the Convention will be as follows: Bath 8, Boyd 11, dracken 6, Carter 12, Fleming 10, Greenup 9, Harrison 8, Lawrence 10, Lewis 12, Mason 13, Nicholas 6, Robertson 2, Rowan 4.—Total 111. Necessary to a choice, 56.

Mr. Oliver Advance.

All the papers of this Congressional District, irrespective of party affiliation, have been publishing a sketch of candidate for Congress, Hon. W. H. Cox of Mayville, embellished with a cut of that worthy gentleman.

Dover Public Messenger.

OUR NEXT CONGRESSMAN.

The Hon. William H. Cox of Mayville will be nominated by acclamation for Congress in the Ninth District in the coming Republican Convention.

The Hon. Samuel J. Pugh has twice carried off the honor for the county of Lewis, and, barring several mistakes, has made a creditable record.

We have not a word to say in opposition to Mr. Pugh, except that in so far as the Congressional race in this District is concerned, he is no longer considered a factor.

His action in the distribution of the Postoffice in this District, and the appointment of "Advisory Boards" in the several counties, was a palpable evasion of his personal, if not official, responsibility. By his thus surrendering the well-known and acceptable prerogative of Congressmen naming the Postmasters, he threw the prizes in among the crowd of applicants, and allowed them to struggle and settle it among themselves. The result was much bitterness was engendered in nearly every county in the District, which is unfavorably remembered, and practically eliminates him as a possible or successful candidate for Congressional honors in the Ninth District.

Our words must not be construed as meddling dictation and interference, but as the private opinion, publicly expressed, of hundreds—aye, thousands—of good Republican voters in Mason, Bracken, Fleming, Boyd and other counties of the District.

The Hon. Samuel J. Pugh is a shrewd and able politician whose foresight is keen and watchful, therefore, he should see and judge of the true situation in the Ninth District and govern himself accordingly.

Mr. Pugh has not signified his purpose of again making the race. This of course is his own private affair.

He has been prominently mentioned as one of the Judges in the new Federal Court District of Kentucky. His legion of friends would be gratified to see him thus honored, and would rejoice to see him further elevated.

It is Mason county's turn now, and the Hon. William H. Cox is the man.

Mr. Cox possesses in an eminent degree all the qualifications of a successful Congressional candidate. He is entirely devoid of all political hypocrisy, and always hits his politics squarely in the face, and is never so happy as when he punctures a fraud or extends the hand of help to unfortunate humanity.

There are other men just as good and noble as Mr. Cox, but Mason county never had a man of his health, standing
